## ALBERTA TO HAVE AN ELECTION EARLY IN JUNE

THURSDAY, JUNE 19th TO BE THE POLLING DAY WITH JUNE 9th AS NOMINATION DAY. THREE MORE SEATS IN NEW GOVERNMENT

The announcement was made on Thursday last that the United Farmers of Alberta would conduct an election throughout Alberta on Thursday, June 19th, and all parties are now busy oiling up the political machine for one of the hottest contests of the history of the province. In the last house there were 43 U.F.A.; 7 Liberals; 6 Labor and 4 Conservative members. The present government has been in power since 1921 and hopes to be returned to power on the faith of the people in the government and on the strength of their accomplishment during those past years of service.

In the new government there will be three more members, five new constituencies having been formed recently, and two combined, making a total of 63 candidates to be elected at the polls. The new seats will be in Drumheller, Edmonton, Calgary, Clover Bar and Grande Prairie. The seats that are being combined are Okotoks and High River; and Nanton and Claresholm.

The next step of the present government will be dissolution and we understand that this will be done immediately. Following this the political fire will become intense and the question of the new government will be known on June 19th.

Null: I started out on the theory that the world had an opening for me.

Void: And you found it?

Null: Well, rather. I'm in the hole now."

READ THE ADVERTISEMENTS !

### FIRST FORTNIGHTLY CROP REPORT

Issued by Dept. of Agriculture  
Telegraphic reports received by the Department of Agriculture indicate that in the southern part of the province from 40 to 75 per cent of wheat is sown. Over all of the southern area moisture is sufficient for germination and over a large part is abundant. In the central sections of the province reports indicate seeding of wheat to be from 35 to 75 per cent completed with sufficient moisture for germination but little reserve. Most of this area has received some moisture during the month of April and on April 24 and 25 snow and rain fell over a large area of the eastern part of the province.

In the Peace River district heavy rains north and south of the Peace on April 24, have delayed seeding for several days. Very little grain has been sown north of the Peace while to the south more than half of the area has been seeded. It is estimated that there is an increased crop area in this district of 25 per cent and that moisture conditions are the best in twenty years.

There is not likely to be much decrease in the acreage sown to wheat throughout the province. There will be, however, an increase in the acreage of coarse grains making a considerable increase in the total acreage sown. The small acreage of winter wheat sown has suffered severely from winter killing.

Livestock is reported to have come through the winter in fair condition.

### DOMINION FISH SERVICE

With a view of giving further assistance to fish and game associations and other bodies in helping to maintain and improve the angling resources of the country, the Fish Culture Division of the Dominion Fisheries Branch has made preparations so that organizations taking up fish cultural activities in the provinces in which the fisheries are administered by the Federal Government, may obtain expert advice and supervision without charge, as well as free allotments of eggs and fry.

Fish reared by any association under this co-operative plan are to be distributed in public waters only.

### LITTLE ITEMS OF LOCAL INTEREST

The usual summer Wednesday half holidays commence next week, May 7th. Farmers must remember that the stores will close at 1 p.m. on these days.

H. C. Willson and Hugh Brown were Calgary visitors last week.

Mr. and Mrs. H. Birch and family of Cluny, motored to Carbon on Sunday and spent the day renewing old acquaintances.

Mr. J. A. MacDonald spent the week end in Medicine Hat and returned to town on Monday.

The Carbon district has again been favored with April showers and the moisture supply is ideal.

The Hesketh Community Players presented their play "Yimmie Yonson's Yob," in the Elks Hall, Drumheller, on Tuesday night of this week.

We understand that Jasper Rochester has secured work in Calgary. He has also signed up with one of the city's Rugby teams and will play with them this season.

Anglican Church Service will be held in Carbon on Sunday, May 4th, at 7.30 p.m. Mr. Ferrey of Drumheller will occupy the pulpit. Everybody is welcome.

Don't forget H. A. English's auction sale on Saturday afternoon.

Mr. and Mrs. Ross Thorburn returned home from Calgary on Saturday.

Miss Joyce Laing was a Calgary visitor last week.

Miss Ella Halstead returned to her school in Craigmyle on Sunday, after spending the Easter holidays at her home here.

Percy Edwards was a visitor to Drumheller on Sunday and returned Monday.

Mr. Smith arrived this week and will be the new manager of the Imperial Building Supplies yard.

Mr. and Mrs. J. J. Greenan and Mrs. L. Poxon were visitors to Calgary last week.

The Boy Scouts entertained the C. G.L.T. Girls to a jolly dance and supper, in their club rooms on Friday last.

### EXCLUSIVELY CANADIAN

Canada is the only country in the world so far to require the quality of canned goods to be clearly marked on the label so that the housewife can buy with the assurance that she is getting what she wants. Under the provisions of the Meat and Canned Foods Act, administered by the Fruit Branch of the Dominion Department of Agriculture, there are four quality grades: "Pancy," "Choice," "Standard," and "Second." "Always buy the quality mark," is a slogan which can now be applied to any home buying with a real value.

### THREE CHANGES IN CONSTITUENCY

Now that a provincial election has been announced it will be of interest to most of the people of this district to know just what territory will be included in the new Didsbury Constituency.

In a letter from Mr. A. B. Claypool, M.L.A. for this district, we are advised that the Didsbury Constituency has undergone three changes. It has lost the neck of land that Drumheller proper is situated in. Kirkpatrick is still included in the Didsbury Constituency and the range line east of Kirkpatrick is the boundary. This constituency also lost three townships which projected into the Olds constituency west of the town of Olds, and three townships on the south, which went into the Cochrane constituency. The main towns in the Didsbury Constituency now are, Carstairs, Didsbury, Acme, Sunnyslope, Three Hills, Swallow, Carbon, and Hesketh, besides the smaller sidings.

Regarding Mr. Claypool's nomination in this constituency as a candidate for the U.F.A. in the forthcoming election, we have received nothing definite, but it is generally understood that his name will again appear on the U. F. A. Ticket. It is also rumoured that Mr. Claypool may be offered the nomination for the new Drumheller constituency, but we doubt if he will forsake his home field for this seat.

### THE GREEN BUSH IS NURSERY OF SPORT

After all is said that can be said about enforcement of fish and game laws, proper methods of propaganda, and so forth, we must admit that the future of fishing depends primarily upon the Forest that gives them birth.

There could be no hunting of moose or deer in a treeless, foodless barren. No stream can maintain its fish when shorn of forest cover along its banks. It is therefore obvious that the sportsman is also a lover of the woods and desires to preserve for all time to come the natural forest conditions that mean everything to the pleasure of his outing. Protect the forests.

Gus: If you had five dollars in your pocket what would you think

Bing: I'd think I had somebody else's pants on!

### HILARIOUS FILM FARCE AT LOCAL THEATRE THIS WEEK

To those people who can enjoy a really funny comedy, the announcement that "It Can Be Done," the latest Universal comedy starring Glenn Tryon, showing at the Carbon Theatre on Friday and Saturday of this week, will be as a cool drink of water to the thirsty.

Glenn Tryon, that popular young comedian who has achieved such phenomenal success in the last two years, portrays the part of a young man who is possessed of a devastating inferiority complex, and consequently undergoes the trials and tribulations that are the lot of all persons afflicted with an excess of timidity.

Tryon takes the part of a young clerk in a publishing firm. He has just been discharged and is leaving the office when he meets the girl of his heart, who thinks he is the boss of the company and forces her manuscript upon him. He reads her story and decides to put into active use some of the theories that it contains.

The adventures that befall him, in the pursuance of this decision, form the theme of one of the cleverest comedies that has ever been filmed.

Tryon is perfectly cast in his role and Sue Carol as the girl, gives an excellent performance. Also, she is pretty and charming. Others in the cast are Tom O'Brien, Richard Carlyle, Richard Carle and Jack Egan.

### DAIRY PRODUCTION SLOWLY MAKING PROGRESS

Dairy production in Canada is slowly forging ahead, but along new lines. The Dairy and Cold Storage Branch of the Dominion Department of Agriculture report an increasing demand for what might really be termed the by-products of the dairy industry. Dairy Production in Canada heretofore has been expressed largely in terms of butter and cheese. The production of butter and cheese shows a decline in volume, while "miscellaneous factory products" and "milk consumed or otherwise," shows a big increase, which is responsible for the net gain in dairy production during the past five years of over \$13,000,000. More fresh milk and cream are being used today than before; ice cream continues to grow in popular favor, and there is a striking increase in the amount of milk which is being processed for sale in evaporated, condensed, concentrated and in powdered form.

### Cause For National Gratification

Profound satisfaction will be felt by the people of Western Canada, in common with the rest of the world, in the successful outcome of the Five Power naval conference in London, England. That satisfaction is all the greater, and the feeling of relief more pronounced, because of the many predictions freely made during the progress of the conference that its results would be nil, and quite abortive in the realization of the hopes in which it was conceived.

Because there were many conflicting viewpoints to be reconciled, many difficulties to be overcome, and the conference ran on month after month, the pessimists told an anxiously awaiting world that nothing would be accomplished because nothing could be; that the nations were still so suspicious of each other that they were afraid to disarm in even the slightest degree; that the old game was still being played with each nation trying to get some advantage at the expense of others.

But with the signing of an agreement by the three greatest naval powers, and acceptance of a portion of the agreement by the next two naval powers, the dire prophecies of the pessimists have been proven foundationless. Instead, the splendid optimism, the unflinching patience and courage of Ramsay MacDonald have triumphed, and a great forward step taken along the road to permanent world peace.

After a world war lasting more than four years, why should people have become discouraged and foreseen failure because a period of three months was required in discussion of the many knotty problems confronting the naval conference before a solution was found?

The British Commonwealth of Nations, the United States of America, and the Empire of Japan have found themselves whereby they undertake to reduce their naval armament and expenditures and voluntarily impose restrictions on themselves. The number, size and armament of ships of war is limited. And who, a few short years ago would have imagined it possible, all five powers agree that information will be given to each by all the others "of vessels it is building" in replacement of obsolete, abandoned and destroyed ships. This is not preparation for war, but for the maintenance of peace.

But the great achievement of the conference is not to be found so much in the actual reductions decided upon, or the limitations of actions voluntarily assumed, as it is in the established fact that the policy of friendly consultation between nations has been given an impetus which will undoubtedly grow. This more than anything else must fill the world with hope for the future.

The conference has also established beyond all possibility of dispute that, no matter how far the leaders of a nation may be prepared to go in the matter of disarmament, they can only proceed as far as public opinion at home will support them in going. The belief is general that the conference would have gone to even greater lengths in disarmament had the various representatives there felt assured of support at home, and that their very willingness to make concessions would not be used to overthrow the whole project when referred for final ratification by their national assemblies.

The great lesson of the conference for all peace-loving people is, therefore, the vital necessity of an awakened and informed public opinion in every land on the awful subject of war and preparation for war, rather than preparation for peace. Once again has it been demonstrated by this naval conference that no Government can move very far in advance of public opinion, no matter how laudable may be the motives by which it is inspired or praiseworthy the object sought to be attained.

It is the rank and file, the great mass of the people who must become peace-minded. It is the masses who must be informed and taught to shed their suspicions and animosities. The more ardent advocates of peace the peoples of all nations become, the more quickly will their recognized leaders and responsible statesmen write those wishes into solemn agreements and binding treaties.

Canadians, perhaps more than any other people in the world, have cause for thankfulness and rejoicing in the reaching of a naval understanding between the British Commonwealth, the United States and Japan. We are part and parcel of the British Commonwealth, while our nearest neighbors are the United States and Japan. With the former we have much in common, while with the latter by reason of our geographical position we must have ever increasing intercourse. Furthermore, any misunderstanding between the United States and Japan could hardly fail to react with injury to us. That all are in accord is cause for deep gratification in Canada.

### Planning Big Air Field

Winnipeg May Have Combination  
Land and Sea Plane Airport

Plans now being formulated by a  
special committee of the Industrial

Write THE BORDEN CO., LIMITED, Dept.  
B 83, 140 St. Paul St. West, Montreal.

W. N. U. 1835

Development Board of Manitoba aim to provide Winnipeg with one of the most unique and best equipped combination land and sea plane airports on the continent. The plans, which have been approved by the Department of Aviation at Ottawa, include an air field 3,000 acres in extent with an artificial lake about two miles in diameter.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

### Chicken Cannery

The construction of a \$25,000 chicken cannery to be operated in connection with the B.C. Egg Pool and with other poultry raising concerns of the Fraser Valley, is planned for New Westminster. It will be a private venture.

One of the most thrilling drives in the mountains of Western Canada is along the new motor road to the top of Mount Revelstoke, in Mount Revelstoke National Park, a reservation of 500 square miles in British Columbia.

### Canada Has Exclusive Method

Quality Of Canned Goods Must Be  
Marked On Label

Canada is the only country in the world so far to require the quality of canned goods to be clearly marked on the label so that the housewife can buy with the assurance that she is getting what she wants. Under the provisions of the Meat and Canned Foods Act, administered by the Fruit Branch of the Dominion Department of Agriculture, there are four quality grades: "Fancy," "Choice," "Standard," and "Second." "Always buy by the quality mark" is a slogan can now be applied to home buying with a real value.

### OWES HER HEALTH TO PINK PILLS

This Weak Anaemic Woman  
Now Rejoices In Health  
and Strength

It is a scientific fact that nearly all the ills that afflict women are due to poor, thin blood. This anaemia is the one cause of low spirits and languidness, the poor appetite, breathlessness and aching backs that make life a burden for so many women. But suffering women could banish all these miseries by taking Dr. Williams' Pink Pills, for it is a known fact that these pills create an abundance of new rich blood — their wonderful reputation is based on that. Proof of these statements is given by Mrs. L. Deschenes, La Tuque, Que., who says: "Before I began using Dr. Williams' Pink Pills I was in a badly run down condition. I appeared to be almost bloodless, had frequent headaches, and the least exertion would leave me breathless and worn out. My husband advised me to try Dr. Williams' Pink Pills and got for me six boxes. Almost from the first I noticed an improvement in my condition, and as I continued taking the pills my blood became better and I steadily grew stronger, till today I am enjoying the best of health. I am now able to do all my housework without feeling the least fatigue; my appetite is better and I sleep more soundly at night. All this I owe to Dr. Williams' Pink Pills, and I unhesitatingly recommend them to all who are run-down in health." You can get Dr. Williams' Pink Pills at all drug stores or they will be sent by mail at 50 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

### Curious Twist Of History

Anyone with an eye for the curious twists of history must be interested in the fact that Primo De Rivera, ex-dictator of Spain, was kept alive for many years past by insulin, developed in the New World, which was discovered by a man financed by the Spanish Court, nearly four and a half centuries ago.

Persian Balm is unrivalled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands flawlessly white. Especially recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

### Canada's Forest Area

The total forest area of Canada is estimated to be 1,151,454 square miles. Of this area, 865,880 square miles are productive and accessible; a little over one third of this area bears timber of merchantable size; the remainder carries young growth not yet fit for use.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

German scientists have succeeded in obtaining electric current from storm clouds in a Swiss mountain and controlling the sparks produced.

### Headache

Let Minard's drive it away.  
Bathe the forehead. Also inhale liniment, heated.

### Boosting For Canada

Many Cities In Britain Have Held  
"Canada Week"

There has not been much said in Canadian newspapers about the city of Bristol's "Canada Week," and the event should have been taken more notice of than it was.

Bristol is a city of 400,000 people. It has just had a "Canada Week," which consisted of a campaign for the buying of goods made in Canada. Pages of newspaper advertising space, posters, window displays of Canadian merchandise, and other forms of publicity were given to our products, and the cumulative results must have meant the selling of many thousands of dollars worth of goods, besides the value of introducing lines of Canadian goods to Bristol purchasers for the first time.

Glasgow, with a population of over a million, and several other big cities, have held "Canada Weeks," and Canada must have derived a large amount of permanent benefit from them.

Such gestures of good-will deserve the practical approval of Canadians. There is a great deal more boosting of Dominion products in Great Britain than there is of English products over here. The Empire Marketing Board spends about \$5,000,000 on the promotion of the sale of Empire goods in the British Isles. We sell a vast quantity of merchandise over there, and then spend most of our money in buying United States' goods.

Canada will wait till the moon turns into cheese before a "Canada Week" is staged in one of the big cities over the border.

### Queer Insects In Peru

Certain Type Of Ant Is Used In  
Surgical Way

There are surgical ant martyrs in Peru. Advices from an expedition of the Field Museum tell that when a native of the equatorial forest is wounded, he gets a certain type of ant with powerful jaws. The ant is made to bite severed edges of skin and bring them together. The surgeon loses his life in healing.

After he bites his body is snipped off and his head with its death grip on the skin remains till the wound is healed.

### Heal the Sprain with Minard's.

### Established a Record

Thirty-two years on a water wagon is a record of civic service which will take some beating, and when there is added to that a service of over 29 years, as driver of the town's fire team, during which he missed only one fire, and the record of John Tozer of Port Hope, Ont., seems to be complete.

# PAINS

No matter how severe,  
you can always have  
immediate relief:

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

## ASPIRIN

TRADE MARK REG.

### Discovery Of Danish Farmers

Sale Of Milk By the Foot Is a  
Possibility

Milk will shortly be on sale by the foot, following important experiments at a Danish farm.

It has been found that when the natural water is withdrawn from cows' milk the remaining pulpy substance can be rolled into sheets similar in appearance to paper.

Special machines have been made to carry out this rolling process on sanitary lines, and the milk becomes so highly concentrated that it is a food in itself.

When required in liquid form it is simply dissolved in boiling water and its strength gauged by the amount of water added.

Iceland's foreign trade is increasing.

Seventy pieces of wood go into the making of a violin.

## Don't "Dose" Headache

RUB forehead and temples with Vicks; also melt in hot water and inhale the vapors.

This clears the head and usually brings quick relief, especially in those cases which so often accompany colds.

If headaches come too often, consult a physician.

can be made or ads. discontinued.

Paper goes to press Wednesday after-  
noon each week.

EDOUARD J. ROULEAU,  
Editor and Publisher

### THE LOCAL MERCHANTS WANT YOUR BUSINESS

Editor, Alliance Times.

This is for publication if you wish  
to print it.

I have been bothered of late with  
Alliance business firms' pamphlets in  
my mail, advertising their wares and  
explaining how I can "save on my  
purchase by buying at their store." This  
point may be debated on but we'll let  
it go. We know what goods are worth  
and we know what business men ask  
for them and every man does not  
make his purchases with the sole  
object of saving a nickel; some men  
are willing to pay a little more and  
trade in their own town, when they  
know they can get the same article  
for less money by sending away. They  
do it to be helping their fellow citizen  
in his business and by so doing keep  
the money at home and some of it  
will find its way back to them. That is  
true business principle. This method  
of advertising must be paid for out  
of the profits of their goods and it re-  
quires a postage stamp for each in-  
dividual pamphlet that is to be sent,  
besides the expense of printing—pretty  
expensive I should think. But what  
gets my goat, the printing is not done  
at home. They want us to trade at  
their store while they are not willing  
to trade at our printing office.

We have an up-to-date printing  
shop in Alliance where anything can  
be done in that line, always on time  
and up-to-the-minute management of  
which is never "lying around drunk,"  
always able to attend to business, here  
for that purpose and needs the money.

They want us to trade at home—  
all right, we'll think it over.

ME FOR THE TOWN

### MAKING POOR WHEAT PAY

The sale of frozen wheat at \$1.13  
per bushel is a pretty attractive fig-  
ure. Feeding tests made at the La-  
come Alberta Experimental Station  
of the Department of Agriculture,  
shows that this can be done. Tests  
were made with four lots of hogs  
with varying rations of frozen wheat  
and frozen wheat fed with oat chop.  
A market value for frozen wheat  
ranging to \$1.61 per bushel was shown  
by the test where oats were fed with  
the frozen wheat. The value of grain  
fed in this way depends directly on the  
price of hogs. At current market prices  
frozen wheat can be marketed  
through hogs at a price equivalent to  
No. 3 Northern.

### CANADA FIRST

Canada built and sent the first  
steamboat across the Atlantic.

Canada built and demonstrated the  
first compound steam engine in the  
history of the world. The effect of  
this invention was the doom of the  
sailing ship as a factor in ocean com-  
merce.

Canada built and demonstrated the  
first submarine telegraph in the history  
of the world.

Canada built and demonstrated the

first railway sleeping cars.

Canada originated the idea of mak-  
ing paper from wood pulp.

Canada demonstrated the first prac-  
tical electric railway in the history of  
the world.

Canada built the world's first elec-  
tric stove.

Canada originated the idea of elec-  
tric heating.

Canada pioneered in the field of  
electro-chemistry with the discovery  
of Calcium carbide by Tom Wilson of  
Hamilton.

Canada originated the idea of Stan-  
dard Time, which has since been  
adopted by every civilized country in  
the world.

Canada originated the idea of the  
panoramic camera.

Canada originated Marquis and  
other more recent wheats which have  
built up the commerce of the west,  
both in Canada and the United States.

Canada first isolated helium in  
commercial quantities.

The idea of the telephone originated  
in Canada and the first long distance  
trials of the instrument were made  
between Paris and Brantford.

Canada gave to the world the idea  
of the all-electric radio.

Insulin is of too recent date to re-  
quire more than mention in this list.

### Here and There

(512)

"As a political creed communism  
is practically discredited in China  
to-day," said Colonel G. W. Birks,  
in charge of Y. M. C. A. work in  
the Far East. Interviewed as he  
passed through Winnipeg recently  
en route to Montreal after a six-  
months stay in the Orient. Colonel  
Birks thought that China would  
shortly split into independent  
parts, North and South China.

Seeding has become general in  
some Saskatchewan points and in  
many farming centres of Alberta,  
and is expected to be general  
shortly if favorable weather condi-  
tions continue, according to re-  
ports coming in to the Winnipeg  
offices of the agricultural depart-  
ment of the Canadian Pacific Rail-  
way.

Seventy head of finest thorough-  
bred stock arrived at Saint John  
recently to go forward by Cana-  
dian Pacific Railway to the Prince  
of Wales ranch at High River,  
Alberta. It is the first shipment  
of the kind to the ranch in the  
past four years. The majority are  
pedigree shorthorn cattle.

"There is at present in Great  
Britain a decided awakening of  
interest in the Canadian universi-  
ties," said Dr. Cyril Norwood, head-  
master of Harrow, one of the most  
famous of English public schools  
and Alma Mater of Lord Byron.  
Dr. Norwood is chairman of the  
delegation of British headmasters  
here on a tour of inspection of ten  
Canadian universities. He arrived  
at Saint John recently aboard S.S.  
Duchess of Bedford.

Canada's first ranking tennis  
star, Dr. Jack Wright, figures lion  
shooting, elephant baiting and an-  
telope hunting is just the kind of  
sport to keep a tennis player in  
trim. Arriving at Vancouver re-  
cently aboard S.S. Empress of Cana-  
da, Dr. Wright says he feels in  
great shape for the forthcoming  
Davis Cup matches.

Retirement of C. E. McPherson,  
assistant passenger traffic manager  
Western Lines, Canadian Pacific  
Railway, after more than 50 years  
of railway service, and promotion  
of six other officials of the depart-  
ment from coast to coast of Cana-  
da, has been announced, effective  
May 1. Promotions are: H. W.  
Brodie to be overseas passenger  
manager; R. G. McNeillie to be  
assistant passenger traffic man-  
ager, eastern lines, Montreal; H. R.  
DesBrisay to be assistant passenger  
traffic manager, western lines,  
Winnipeg; E. F. L. Sturdee, gen-  
eral passenger agent, Vancouver;  
H. R. Mathewson, general passen-  
ger agent, Winnipeg; and George  
R. Carter, assistant general passen-  
ger agent, Montreal.

The annual production of honey  
in Canada is about thirty million  
pounds. While a great deal of  
honey is used in the home, the  
principal commercial users are con-  
fectioners, bakers and bottlers.

At the World's Poultry Congress  
to be held at the Crystal Palace  
near London in July, a feature of  
the Canadian exhibit will be a  
model of the Prince of Wales' ranch  
at High River, Alberta. It will  
occupy 100 square feet of space  
and will be fitted with electric ap-  
pliances and lighting that will  
show the ranch in a novel and at-  
tractive way.

## The Great White Fleet

Canadian Pacific Empress Liners on both oceans will all be painted white when the Atlantic ships, Empress of Australia, France and Scotland have been metamorphosed to this color. The Pacific fleet always was white and the new giant vessel, Empress of Britain, now building, will be white also. With the opening of the St. Lawrence season of navigation next April, the Canadian Pacific will possess the greatest white fleet in the world. The ships are to retain the familiar buff-yellow funnels and ventilators and will have white upper works and a white hull relieved with a blue streak. Above is the artist's conception of the Empress of Britain when completed, shown on right with Chateau Frontenac, Quebec in background and the Empress of Japan, biggest ship on the Pacific. The ships were depicted by O. F. Pennington, marine artist of note and an officer in the Canadian Pacific service.

## Canada's Trans-Atlantic Challenger

While her builders maintain secrecy as to her engines, the new Canadian Pacific liner "Empress of Britain" is hailed by newspapers in the Old Country as a challenger in the Atlantic speed race. The London Daily Chronicle declares that "she will prove a formidable rival of the Bremen, and in any case will set up a new Atlantic speed record, for the journey from Southampton to Quebec will be made in five days or less."

So far the Canadian Pacific has made no claims for the new liner beyond the statement that she will bring Canada one and a half days nearer to England and will be the most luxurious liner on the seven seas.

Every first class cabin is to be an outside room with natural light and air and the room without bath attached will be unusual. Other ways in which the \$15,000,000 new ship is costing will be spent includes two stages fully equipped for theatrical performances, Turkish baths, swimming pool, squash racket court (the first on an ocean liner), full size tennis court on sports deck, beauty parlours, violet

ray installations and a series of public rooms designed and decorated by prominent members of the Royal Academy.

Now building in Scotland, the Empress of Britain will enter service early in 1931. The sixteenth vessel of a building programme totalling 215,000 tons launched in a three year period, the Empress of Britain is designed to accommodate 1,100 passengers in First, Tourist Third and Third classes. A comparison of her tonnage of 40,000 with the 20,000 gross registered tonnage of the "Duchess" class which accommodates 1,600 passengers, indicates the lengths to which the company has gone to make spaciousness an outstanding feature of the accommodation.

In addition to her position as Speed Queen of the St. Lawrence route to and from Europe, the Empress of Britain will have the distinction of being the largest liner making round the world cruises, achieving this by the comfortable margin of 8,000 tons.

Keep awake with  
**WRIGLEY'S**  
Drowsiness is dangerous.  
Weary miles seem shorter  
and the day is brightened when  
you have Wrigley's with you.  
Its sugar peps you up. Its  
delicious flavor adds to any  
enjoyment.

**"CONSTIPATION  
COMPLETELY GONE"**  
writes Mrs. W. Walker. Thousands  
say constipation, indigestion, gas  
and overeating with "Fruit-a-tives".  
Complexion clears like magic. Nerves, heart  
quiet. Get "Fruit-a-tives" from druggists today.

### WORLD HAPPENINGS BRIEFLY TOLD

No more British trainees will be  
placed on Ontario farms by the pro-  
vince. The government announced  
the experiment had not proved sat-  
isfactory.

Sergeant-Major William J. Cle-  
ment, Guelph's oldest soldier, cele-  
brated his 93rd birthday, April 22.  
He has spent a lifetime in the army,  
yet has never seen a single battle.

Robert Bridges, poet laureate of  
England, died in London, April 21.  
Mr. Bridges, who has been poet laure-  
ate since 1913, was 86 years old.  
His works were known all over the  
world.

Official announcement has been  
made for rendition of Weihaiwei, a  
British leasehold in Shantung, back  
to China. The agreement was signed  
by Sir Miles Lampson, British min-  
ister, and C. T. Wang, Chinese for-  
eign minister.

Coming to the end of their long  
road, the delegates of the great five  
naval powers affixed their signatures  
to an historic treaty limiting and re-  
ducing the navies of three of them  
and placing certain restrictions up-  
on the sea forces of the other two.

If the luck of certain Port Bur-  
well, Ont., fishermen keeps up, house-  
wives soon may be ordering goldfish  
from the fish shops. Fishing in Lake  
Erie, about a mile west of the har-  
bor, the fishermen brought in a live  
goldfish, about eight inches in length,  
in their nets.

When Lord Byng returns to Eng-  
land, he will apparently resume his  
duties as chief commissioner of  
Metropolitan Police and head of  
Scotland Yard. He has been staying  
with a friend near Port Elizabeth,  
S.A., recuperating from his serious  
illness of last December.

Ninety per cent of the people now  
in Manchuria are Chinese.

### FAINT, DIZZY SPELLS

Had To Sleep  
Propped Up In Bed

Mrs. Norman Bishop, Salisbury,  
N.H., writes: "I was troubled with  
faint and dizzy spells and when I  
would lie down I would suffer terribly  
with smothering spells. I got so bad  
I had to sleep propped up in bed."

"My doctor said it was my heart  
and nerves, and that I needed a good  
heart tonic."

"I was advised to take

and I had not taken one box when I  
could lie down and sleep like a child."  
Price, 50c. a box at all druggists  
and dealers, or mailed direct on re-  
ceipt of price by The T. Milburn Co.,  
Limited, Toronto, Ont.

### Establishing Training Centres For Criminals

English Prison Commission Plans To  
Train Men In Suitable Work

As part of the scheme to reclaim  
young criminals, the English prison  
commission will establish a series of  
training centres, the first of which  
will be at Nottingham, where men  
of a special class between the ages  
of 21 and 26 will be sent. The aim  
will be to train each man in the work  
for which he is best suited. The  
men will work eight hours a day.

Speaking of the scheme, an offi-  
cial of the prison commission said  
in an interview: "Probably we shall  
attach some of the men to the build-  
ing parties and engineers. There  
will be physical training, and in the  
evenings educational pursuits."

Further the official said: "Crim-  
inals will not be sent to the train-  
ing centre direct by order of the  
courts, but will graduate from the  
prison to the training centre."

### Winnipeg Newspaper Union

(By Eva A. Tingey)

7053  
YOUTHFUL CHARM

All Tingey models are created and  
sketched in Paris and the patterns  
are made in New York.

Here's a darling frock for college  
girls and debutantes. It has a  
moulded bodice and softly flared  
skirt — a style adorable for slim  
young bodies. The collar and cuffs  
are charming too, easy to make and  
yet so fascinating when finished.

Flat silk crepe and wool crepe are  
lovely for this model, but another  
suitable and charming medium is  
marocain.

Imagine, for instance, soft green  
or scarlet marocain, with organdie  
ruffled with cream tinted valenciennes  
to match.

Another extremely pretty way of  
treating the collar and cuffs is to use  
organdie with ruffles of narrow  
matching ribbon. Sometimes this  
can be purchased with a tiny metal  
edge which makes a most attractive  
finish.

Of course a bought collar and cuff  
set can be worn with this model.

This pattern may be obtained in  
sizes 14 to 20 and 34 to 39. It is  
ready for immediate delivery. It is  
hand cut.

Pattern price 25 cents. Be sure to  
fill in size of pattern. Address Pat-  
tern Department.

### How To Order Patterns

Minard's Checks Falling Hair.

### Do Your Ears Buzz With Loud Noises?

This is an infallible sign of Cat-  
arrh, and if not checked may result  
in partial deafness. The simplest  
remedy is CATARRHOZONE — in-  
hale its soothing vapor a few times  
daily, and it prevents Catarrh from  
spreading. Head noises, buzzing and  
ringing in the ears are soon corrected  
by CATARRHOZONE. Nasty  
nose-discharges are stopped. Sore,  
inflamed crusts are healed. Sickening  
mucous which drops back from the  
nose to the stomach is done away  
with. Headaches depart. The breath  
is purified. You will be free from  
colds, coughs, sore throat and cat-  
arrh if you use CATARRHOZONE.  
Two months' treatment \$1.00; small  
size, 50c. At all dealers.

### Banquet For Livestock Men

Old Timers Will Be Entertained At  
Calgary Exhibition

One of the events of the 1930 Cal-  
gary Exhibition and Stampede will  
be the dinner to be given by the  
Canadian Pacific Railway on Tues-  
day, July 8th, to the men who were  
actively engaged in the livestock in-  
dustry in the territory bounded by  
Moose Jaw on the east to Kamloops  
on the west, and from Red Deer Riv-  
er on the north to the international  
boundary, prior to December 31st,  
1930. The guests must have been at  
least 20 years of age at that time  
and engaged in the ranching business  
either as owners, managers, foremen,  
cowpunchers, cooks or horse wrang-  
lers.

### HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and  
during its waking hours is never  
cross but always happy and laughing.  
It is only the sickly child that is  
cross and peevish. Mothers, if your  
children do not sleep well, if they  
are cross and cry a great deal, give  
them Baby's Own Tablets and they  
will soon be well and happy again.  
The Tablets are a mild but thorough  
laxative which regulate the bowels,  
sweeten the stomach, banish consti-  
pation, colic and indigestion and  
promote healthful sleep. They are ab-  
solutely guaranteed free from opiates  
and may be given to the new-born  
babe with perfect safety. You can ob-  
tain the Tablets through any medi-  
cine dealer at 25 cents a box, or by  
mail, post paid, from the Dr. Wil-  
liams' Medicine Co., Brockville, Ont.

### A Picturesque Ceremony

One of the most picturesque cere-  
monies held in Rome, Italy, this  
year, was on the feast of St. Agnes,  
when the blessing of the lambs was  
observed. White-veiled girls carried  
the garlanded animals from the  
fleece of which is woven the pallium  
worn by Roman archbishops  
through the streets in procession be-  
fore the blessing.

A Real Asthma Relief. Dr. J. D.  
Kellogg's Asthma Remedy has never  
been advertised by extravagant state-  
ments. Its claims are conservative in-  
deed, when judged by the benefits  
which it performs. Expect real relief  
and permanent benefits when you  
buy this remedy and you will not  
have cause for disappointment. It  
gives permanent relief in many cases  
where other so-called remedies have  
utterly failed.

### Powerful New Gun

A new gun capable of firing .50  
calibre bullets nine miles at a rate  
of 800 a minute has been accepted  
by the U.S. navy department and will  
be manufactured as one of the new-  
est and most deadly offensive mod-  
ern arms. The gun is the invention  
of Robert F. Hudson.

Miller's Worm Powders do not need  
the after-help of castor oil or any  
purgative to complete their thorough-  
ness, because they are thorough in  
themselves. One dose of them, and  
they will be found palatable by all  
children, will end the worm trouble  
by making the stomach and bowels  
untenable to the parasites. And not  
only this, but the powders will be  
certain to exert most beneficial in-  
fluences in the digestive organs.

### Filleting Of Fish

Filleting of fish in the Peter Pond  
district, a couple of hundred miles  
north of the Battleford district, in  
Saskatchewan, was undertaken this  
winter for the first time, when 40-  
000 pounds of whitefish and 5,000  
pounds of jackfish were filleted.

### Campers Carry Minard's.

In China there is one qualified doc-  
tor to every 740,000 inhabitants. In  
Great Britain the proportion is one to  
1,400.

### SUNDAY SCHOOL LESSON MAY 4

GIVING UP ALL FOR THE  
KINGDOM

Golden Text: "Lay up for yourselves  
treasures in heaven." — Matthew  
6:20.

Lesson: Matthew 19:1-29.  
Devotional Reading: Proverbs 8.  
1-11.

### Explanations and Comments

In Regard To Giving Up All For  
the Kingdom, verses 16-22.—And be-  
hold one, a ruler of the synagogue, as  
Luke tells us (18:18), came to Jesus  
with the question, "Teacher, what  
good thing shall I do, that I may  
have eternal life?" His question was  
a natural one, for the religious teach-  
ers, the rabbis, differed greatly  
among themselves in their teaching  
and their practice. "His coming  
must have been as welcome to Jesus  
as the visit of the mothers with their  
children; a man not belonging to the  
class of self-satisfied religionists of  
whom he had had ample experience;  
with moral ingenuousness, an open  
mind, and a good, honest heart; a  
malcontent, probably with the teach-  
ing and practice of the rabbis and  
scribes, coming to the anti-rabbinical  
Teacher in hope of hearing from Him  
something more satisfying.—A. B.  
Bruce.

"Why asketh thou Me concerning  
that which is good? One there is who  
is good," and to obey His will is to  
find your right course of action, was  
Jesus' answer. "But if thou wouldst  
enter into life, keep the command-  
ments," Jesus further explained  
"Which?" very naturally questioned  
the young man, for besides the ten  
commandments there were many  
other laws given by Moses and a  
multitude given by the scribes. In  
answer, Jesus cited the sixth,  
seventh, eighth, ninth and fifth com-  
mandments of the Decalogue, all of  
them bearing upon one's treatment  
of others, and then added from Levi-  
ticus 19:18, "and, Thou shalt love thy  
neighbor as thyself." All these  
things have I observed: what lack I  
yet?" the young man returned in  
surprise. Dean Farrar voices the  
young man's thoughts: "Surely the  
Great Teacher to whom I have come  
seeking for some great thing to do,  
or secret thing to know, cannot pos-  
sibly give His answer that I am to  
keep these old, simple, elementary  
Ten Commandments, which I have  
known ever since I lisped them at my  
mother's knee! He must mean some-  
thing far beyond that." Dean Far-  
rar comments: "It was exactly like  
the child in the poem who, having  
been talked to continually about the  
glory and majesty of the sea, and be-  
ing led to the seaside said, 'Is that  
the mighty ocean? Is that all?'"  
"If thou wouldst be perfect, go,  
sell all that thou hast, and give to  
the poor," answered Jesus. This  
was the one thing necessary for this  
man to do, for between him and the

**PIMPLES**

love of God, as well as between him  
and the love of his neighbor, stood  
the love of possessions, "For he was  
rich."

### Canada's Honey Production

The annual production of honey in  
Canada is about 30,000,000 pounds,  
the principal commercial users being  
confectioners, bakers and bottlers.

### DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a  
belching, from sour and acid stomach?  
Many believe they have heart trouble  
and tremble with fear, expecting any  
minute to drop dead. This condition  
can be prevented, likewise relieved.

Take Carter's Little Liver Pills  
after meals and neutralize the gases.  
Sweeten the sour and acid stomach, re-  
lieve the gas and encourage digestion.

The stomach, liver and bowels will  
be cleansed of poison, painful and  
dangerous indigestion disappears and  
the system enjoys a tonic effect. Don't  
delay. Ask your druggist for a 25c  
pkg. of Carter's Little Liver Pills.

### Where Ireland Leads

Reports of the Irish Free State,  
just published, show a greater per-  
centage of spinsters of all ages than  
in any other country in the world.  
Between the ages of 30 and 35 at  
least 42 per cent. of the women are  
unmarried.

## BIG INDUSTRIES MAY LOCATE IN COAST PROVINCE

Vancouver, B.C.—Three major industries are making extensive investigation with the object of establishing in British Columbia, and one of them—one which would mean the building of a very large industrial plant—is almost certain to decide in favor of this province, according to Premier S. F. Tolmie, who passed through Vancouver en route to Victoria after a visit to Eastern Canada.

The premier's visit to Ottawa convinced him that the International Sockeye Salmon Treaty will be passed at the present sitting of the Dominion Parliament providing amendments which may be made by the United States are satisfactory.

The premier said that the Dominion Government will investigate the Yukon section of the proposed Alaska Highway. Premier Tolmie finds that British Columbia owes a debt to the members of the Australian lumber delegation, whom he met in Ottawa. There is much evidence he said, of the thoroughness with which they did their work.

While in Ottawa the premier took up the matter of the five-year census for British Columbia. The prairie provinces enjoy this at present and he feels that British Columbia would benefit from the same provision. He promised to pursue the matter further.

## C.N.R. To Be Reconstructed

Endorsement Of Amalgamation Of All Companies Is Expected

Ottawa, Ont.—The reconstruction of the financial structure of the Canadian National Railways will be started from this session of parliament with the passage of a bill to amalgamate into one corporate body all the various companies which now make up the C.N.R. Intimation to this effect came from the Department of Railways and Canals. It is not expected, however, that the further steps of consolidating the various bond issues and otherwise reorganizing the whole financial structure will be proceeded with this year.

The bill to consolidate the companies, it is believed, will not be contentious and will go through with little discussion; but to deal with the financial structure would take a great deal of time, even if the preparations were far enough advanced, which includes consent of the various bond-holders. If there is to be a general election this year, legislation taking up so much time would likely find the going difficult.

## Two Vancouver Teachers Drowned

One Sacrificed Life In Attempt To Rescue Friend

North Vancouver, B.C.—J. A. Hyndman, Vancouver, and F. E. Lothian, Vancouver, teachers in Carleton school, Vancouver, perished in Lynn Creek before the eyes of 18 girl pupils they had taken for a mountain hike.

Mr. Lothian sacrificed his life in a gallant attempt to save his friend.

The party had reached Second Canyon and Mr. Lothian safely crossed the large log that serves as a bridge, when Mr. Hyndman lost his balance halfway across and fell into the boiling current.

Without hesitation, Mr. Lothian plunged into the swollen creek, but failed to reach his friend, before both were swept over the falls and perished.

### Bar Indentured Goods

Washington, D.C.—All foreign competitive goods made by forced or indentured labor would be barred from entry into the United States under a compromise reached by congressional conference on the tariff bill.

### Starts New Air Service

New York, N.Y.—Still blazing new air trails, Col. Charles A. Lindbergh has inaugurated the new trans-Caribbean Airways by making a dawn-to-dusk flight from Havana to Cristobal, Canal Zone.

W. N. U. 1835

## Parachute Saves Aviator

Plane Crashed From Great Height At Sacramento, Cal.

Sacramento, Cal.—Lieut. I. A. Woodring, 95th Pursuit Squadron, Rockwell Field, San Diego, leaped to safety with his parachute when his plane crashed on Mather Field from a height of 2,000 feet during a "dog fight."

Captain H. M. Elmiendorf and Lieut. Woodring had withdrawn from the pursuit formation flying in review to stage an aerial combat. Suddenly something was seen to fly off Woodring's plane, and at the same instant the flyer leaped from the cockpit. He floated to the field uninjured. The plane crashed within 200 feet of the spot where the pilot landed.

Lieut. Woodring was pilot of the plane which, in the summer of 1927, was in fatal collision with that of Lieut. Thad Johnson, as the latter missed his landing at Uplands Field, Ottawa, at the end of a flight as part of the escort to Col. Charles A. Lindbergh who flew to the Canadian capital to take part in the celebration of the Diamond Jubilee of Confederation.

Johnson jumped as Woodring's propeller smashed the tail assembly of his machine, but he was too close to the ground and his parachute failed to open.

## Australia Wants Native Viceroy

Chief Justice Of High Court Has Been Recommended For Office

London, Eng.—The old and much disputed question of whether the British dominions should have governors-general of their own nationality is likely to be settled once and for all by Australia's demand that the successor to Lord Stonehaven should be an Australian.

Sir Isaac A. Isaacs, chief justice of the Australian high court, has been recommended as the Commonwealth's next governor-general, and although the dominions office here is silent, it is understood that a precedent in this connection will probably be established.

Sydney, Australia.—Addressing the first annual meeting of the new Australian party, Rt. Hon. William Morris Hughes, Maritime Prime Minister of Australia, and its leader, said it did not matter to the party who governed Australia so long as it was governed well. Therefore the Australian party would support good government wherever they found it. He had some criticism, however, for the recent government of Rt. Hon. Stanley Bruce, declaring its only remedy for financial depression was reduction of wages.

## Noted Soldier Dead

Sir Gordon Guggisberg Served Empire In Many Ways

London, Eng.—Few men have had a more versatile career or a greater variety of Empire service than Sir Gordon Guggisberg, noted soldier and colonial administrator, whose death here came as a shock to official circles. Sir Gordon had been governor of British Guiana since 1928. He was 60 years of age and Canadian-born, his birthplace being Toronto.

Sir Gordon Guggisberg had a distinguished career in the war and before and after the war served his king in the east, in Africa and in South America. Sir Gordon was a graduate of the Royal Military College at Woolwich, and while military promotion was for a long time a slow matter for Gordon Guggisberg, in this he suffered what was but the inevitable lot of most peace time soldiers.

### Japanese Royalty Starts Tour

Yokohama, Japan.—Japan's Imperial newlyweds, Prince and Princess Takamatsu, sailed from this port, aboard the "Kashima Maru," for Europe, on a honeymoon, which will last over a year, and will encircle the globe. They will visit most of the courts of Europe and will spend ten days in Canada, probably before sailing for home, from some Pacific port, around May 1, 1931.

Modern machinery makes it possible to generate one unit of electricity from 2.29 pounds of coal, whereas 4.90 pounds were ten years ago.

## FRENCH MOTOR EXPERT

Miss Amalascia Norden is probably the most efficient woman in all of France when it comes to knowing her A B C's about motors. Whether they are automobile, aeroplane, marine or any other variety of engine, Miss Norden knows as much if not more, about them than many so-called male experts.

## Athlete From West Again In Limelight

Ethel Catherwood Training For Sports' Event In Toronto

Toronto, Ont.—After a long lay-off Ethel Catherwood, from Saskatoon, who set the athletic world talking when she came out of the west three years ago, is resuming her high jumping activities shortly. The holder of the girls' world's record of five feet three inches, made at the 1928 Olympic games, has jumped at a meet only once since her return from Amsterdam, and then only gave an exhibition at the Coliseum in the following February. Last summer she spiked herself while training and the injury was long in healing, keeping her out of all the meets. She will give a special exhibition at the Shriners' sports in June. Walter Knox and "Ab" Chilcott will look after her training at Hampden Park.

## Canadian Prisons Fireproof

Ohio Disaster Could Not Happen Here Says Superintendent

Ottawa, Ont.—"Positively impossible," was the comment of General W. St. Pierre Hughes, superintendent of penitentiaries here, when asked if a fire such as destroyed the Ohio state institution with the loss of more than 300 lives could happen in any Canadian penitentiary. "Our institutions," said General Hughes, "are entirely fireproof."

All the cell blocks in the Canadian penitentiaries were fire-proof, he said.

### France Denies Report

Paris.—Information appearing in newspapers of foreign countries to the effect that France would build a new cruiser of 27,000 tons, armed with eight guns of 12-inch calibre, has been officially denied.

## King May Appoint New Poet Laureate

Successor To Dr. Robert Bridges Not Yet Named

London, Eng.—The literary and the ordinary public too are wondering who will be the next poet laureate, or if indeed there will be any successor to Dr. Robert Bridges. The question of whether his honorary position would lapse was raised after the death of Lord Tennyson, and Tennyson's successor, Austin, was not appointed until Tennyson had been dead four years.

Lord Tennyson, who died in 1892, was the last poet who actually performed in any measurable degree the direct duty of the poet laureate, namely, the writing of a poem or ode when the monarch was buried with anything of extra moment. The day for writing poetry at the king's command has, of course, long since gone.

But it is likely that His Majesty, after a reasonable interval will, on the advice of the prime minister, confer the title of poet laureate upon some scholarly man of verse and thereby continue this special royal recognition of poetry, which began as early as the days of Chaucer, who received an allowance of wine from the King's wine butts.

## French Flier Honored

Notable Figures In Aviation Attend Funeral In New York

New York, N.Y.—Representatives of the French Government and notable figures in the field of aviation, including Col. Charles A. Lindbergh, paid their last respects to Count Henri de la Vaulx, president of the Federation Aeronautique Internationale, who was killed in an accident at Jersey City, N.J.

While aeroplanes circled in formation overhead, the Rev. Theophine Wucher conducted a requiem mass in the French church of St. Vincent de Paul. Then the body was removed to the French line pier to sail on the "De Grasse" for the dead aviator's native land.

## Aliens Risk Death To Reach States

Caught By Officers After Crossing Niagara River Above Rapids

Niagara Falls, N.Y.—Crossing the Niagara river in a frail boat, a short distance above the entrance to the treacherous whirlpool rapids, four aliens braved death in their attempt to enter the United States illegally. The aliens were caught by immigration border patrolman after they ascended the 200-foot bank of the gorge by means of an iron ladder that runs down a steep cliff, but the runner who had transported them escaped.

### Looking For Honors

Geneva.—Venezuela representative at the League of Nations headquarters here asked that his country should have next turn in supplying the president of the league. His request was referred for decision to the next session of the league council.

## TREATY SIGNED BY DELEGATES OF FIVE POWERS

London, Eng.—The "London naval treaty of 1930" was signed by the delegates of the five powers in St. James Palace, and the conference opened by King George V., three months ago adjourned.

A few hours later the U.S. delegates entrained for Southampton and boarded the "Leviathan," which waited a day for them and in which they sailed for home. The French and Italian delegates departed for Paris and Rome respectively, after the signing ceremonies were over.

The full text of the treaty was officially made public at the moment when Secretary of State Henry L. Stimson sat in an old state chair covered in red velvet and appended the first signature to the Morocco-bound document opposite a red seal with a blue ribbon attached. It contains nothing not exhaustively discussed previously in these and other despatches.

The 92-day-old conference began its sixth and final plenary session in a dignified, almost sombre mood which was maintained during half an hour of oratory. But at the end the veteran French statesman, Foreign Minister Aristide Briand, exercising all his famous charm, wit and good nature, brought the delegates, their advisors and the hundred correspondents who filled Queen Anne's drawing room to their feet laughing and applauding as he solemnly transferred from "the collective ownership of the conference to the private ownership of our chairman, Monsieur MacDonald," a gold pen presented for the treaty's signature.

## Received By King George

Canadian Minister To France Has Interview At Windsor Castle

London, Eng.—Canada's minister to France, Hon. Phillippe Roy, was received by the King at Windsor Castle, where he spent 20 minutes chatting with His Majesty, mostly about Canada.

"I was surprised at the health and vigor of the King," Mr. Roy said after the interview. "I was formerly a doctor and thus able to judge. I think the King is in better health than he has been for many years."

Mr. Roy told His Majesty that the first time he saw him was when he (Roy) was a student at Laval University in Montreal in 1891 and the King an officer on a British ship then visiting Canada.

The Canadian minister has seen King George on several occasions since, but this was the first opportunity of speaking to him since his appointment as Canadian minister in Paris.

## Coming To Canada

British National Union Sending Party Of Farmers On Tour

London, Eng.—The British National Union, it is announced, is arranging to send a party of farmers to tour Canada during August and September. There had been a great deal of talk lately of British agriculture being "behind the times," and it is hoped the interchange of ideas which will result from the visit may be of value to the party while it is possible they may also be able to give some counsel on certain problems of the soil with which those of the homeland have had more experience than the farmers of the new world.

### Expect Early Release

Toronto.—Chinese officials are in communication with the captors of Rev. C. A. Bridgman, Canadian United Church missionary in West China, and hope to negotiate an early release, said a cablegram to foreign mission offices in China from the mission station at Chungking, West China.

### Pilots For Prince Killed

Cairo, Egypt.—Aeroplane in which the Prince of Wales travelled here from Khartoum crashed at Heliopolis aerodrome shortly after taking off on its return flight to Khartoum. Its occupants were killed. The victims were Pilot Officer K. S. Barron and Aircraftman C. Davies.

## One Day Old, but Lively

Every spring millions of baby chicks go out from the British Columbia coast and Vancouver Island to the interior of the province and the Prairie Provinces. Hatched earlier on the milder Pacific slopes than elsewhere in Canada, they are rushed by Express across the country to poultry breeders inland. Taken when they are but one day old, they are placed in cardboard boxes with breathing holes punched in them, and loaded into express cars kept at just the right temperature for their benefit. They can go 72 hours without food or water. Above package has just been landed at Vancouver, and is being examined prior to train shipment. According to officials of the Canadian Pacific Express Company which annually handles millions of these fluffy balls, the traffic is growing steadily from year to year.

## Major Developments In Canada's Air Mail Service Attracting Great Attention

Canada, with her vast area and widely scattered population, is advantageously situated to derive the greatest benefits from the development of internal air mail service. The great distances which separate the principal urban centres and the steady and broad-fronted advance in settlement and development serve to render postal communication by air peculiarly valuable in the Dominion. In addition, the Post Office Department of Canada has entered into a reciprocal arrangement with the United States postal authorities whereby Canada may take full advantage of the extensive United States air mail services connecting with points in Mexico, the West Indies, and Central and South America.

The establishment of Canada's official air post services is of comparatively recent date, but the conveyance of mail matter by air within Canada has been an actual fact for over ten years. In the early days of mail transportation by air, the Post Office Department, as a temporary measure, gave permission to the operating aviation companies to carry letters, entirely at the sender's risk and subject to a small fee ranging from five cents to twenty-five cents per letter, in addition to the regular postage. This fee was retained by the operating company. The successful operation of numerous "sticker" services demonstrated beyond question the essential practicability of air mail transport in the Dominion, for these services were conducted in many cases under considerable operating difficulties although not on hard-and-fast schedules.

Civil aviation in Canada assumed proportions in 1927 which justified the Post Office Department in utilizing the facilities available for the fast transport of mails, not only to remote areas but between the larger centres of population. Services of the latter type had of course to be arranged on definite time schedules and this involved a much greater problem. As a beginning a service was inaugurated by which incoming British mails were taken from trans-Atlantic steamers and transported by air to Montreal, thus considerably hastening their delivery. Later, on October 1, 1928, a service of daily frequency was established between Montreal and Toronto, and on the same day an international air mail route was opened between Montreal, P.Q., and Albany, N.Y. On July 15, 1929, the Montreal-Toronto route was extended to Detroit, via Hamilton, London, and Windsor, Ontario, and thus a point of contact with the United States air mail routes westward was established, in addition to providing the most densely populated portion of Ontario with speedy air mail service. On the same date a still further connection with southern air mail routes was provided by the establishment of daily service between Toronto and Buffalo. Notwithstanding the difficulties of operation in the Maritime Provinces—scarcity of suitable landing fields, densely wooded areas, broken country, and fog—the Postmaster-General inaugurated a service early in December, 1929, between Montreal, Quebec, Moncton, and Saint John.

The next major development in Canadian Air Mail Service was the inauguration of the trans-prairie route on March 3, 1930. Planes are now operating daily between Winnipeg, Regina, Moose Jaw, Medicine

Hat, and Calgary, and between Regina, Saskatoon, North Battleford, and Edmonton on a schedule which clips a full twenty-four hours off the transcontinental movement of Canadian mails. This not only constitutes a marked advance towards the coast-to-coast service which is being developed link by link, but revolutionizes intercommunication between the provinces of Alberta, Saskatchewan, and Manitoba.

It is in the outlying portions of the country, however, that the most valuable work of Canada's Air Mail Service has been carried out. Until recently the remote settlements along the north shore of the St. Lawrence River, on Anticosti and the Magdalen Islands in the gulf of St. Lawrence, and along the sub-arctic reaches of the Mackenzie River, have been almost cut off from the outside world during the winter months. Communication was necessarily by dog team and other primitive methods until the recent dramatic change to swift aeroplanes reduced the duration of mail trips from weeks to hours.

The establishment of contract air mail service in the Mackenzie River District—the most northerly of all air mail services—in December, 1929, attracted world-wide attention. The route from McMurray, down the Athabasca River, along the south shore of Great Slave Lake, and down the mighty Mackenzie River is nearly 1,100 miles long. Hitherto, in winter months, dog teams had been the sole means of conveyance and the volume of mail was correspondingly small being limited to letters and a few newspapers. The total amount for Aklavik in the winter of 1928-29 was less than two hundred pounds. Contrast this with the remarkable conditions obtaining on the advent of air mail facilities. Ten thousand pounds of mail were carried on the first flights—over a thousand pounds alone for Aklavik at the mouth of the Mackenzie. The chief remaining routes are those which penetrate the rich mining areas of Ontario and Manitoba, i.e., Red Lake, Kississing, and Blissett. They are the principal mineral areas served by air mail in Canada.

The development of flying fields and provision of lighting facilities, not to mention the constant improvements in aircraft which may be expected during the next few years, will undoubtedly do much to facilitate the performance of regular scheduled air mail services within Canada. Meanwhile the efficiency percentages maintained by the different operating companies are remarkably high. In addition to holding the world's record for speed over contract air mail lines, the Canadian service proudly boasts that it has never lost a single piece of mail out of the hundreds of tons that have been entrusted to it.

### Mature Corn For Silage

Superiority Over Immature Corn Proved By Tests

The superiority of silage from mature over immature corn is clearly demonstrated by tests conducted at the Dominion Experimental Farm, at Brandon, Manitoba. In a series of tests in which a group of six cows were fed alternately, mature and immature corn silage, a marked increase in the volume of milk produced, and in respect to gain in bodily weight, was shown by the group fed mature corn silage. The relative feed values shown by laboratory tests are:—for mature corn 69.1 per cent. moisture content, 2.77 per cent. protein, .61 per cent. fat, 16.63 carbohydrates, 9.27 fibre, and 1.62 per cent. ash; for immature corn the moisture content was 82.6 per cent., protein 1.71 per cent., fat .91 per cent., carbohydrates 7.74, fibre 5.45, and ash 1.59 per cent.

### Under Soviet Rule

It's not all "cakes and ale" in Soviet Russia, according to Zachary Braunbeck, who has just received a pathetic letter from his brother in Okruc, Siberia. The brother wrote that the government had appropriated his wheat crop, bedding and furniture, leaving only 20 bushels of wheat for his family's use.

### A TITLED FLIER

Her Grace the 64-year-old Duchess of Bedford, who took off from London, on a flight to Capetown, South Africa. With the duchess are two pilots and she plans to take her turn at the controls.

### Must Use Percentage Of Domestic Flour

Legislation Is In Force In Five European Countries

State legislation requiring millers to use a certain percentage of domestic flour in making of bread is in force in Germany, France, Spain, Switzerland and Portugal, states Hon. G. M. Gillett, secretary of the overseas trade department, in a written answer to a question in connection with the proposal that the British loaf should contain a statutory proportion of British-grown wheat flour.

The minimum in France is as high as 97 per cent. it is declared. In Spain the minimum is 5 per cent. No percentage is fixed in Switzerland and Portugal, but millers in those countries must take delivery of a certain quantity of native wheat.

In 25 years—from 1900 to 1925—the reindeer population of Alaska increased from 3,000 to 400,000.

It costs from \$1,600 to \$2,000 per mile to sand a road.

## Canadian National Parks, With Wonderful Scenic Beauty, Form a Great National Asset

The coming season promises to be one of great tourist activity so far as the national parks of Canada are concerned. Officials, both of the Department of the Interior and of the railways, report an unusually large number of requests for information and advance bookings. Large numbers of inquiries have also been received in the department from motorists in practically every section of Canada and the United States, and even from Mexico. The majority of these ask for the shortest routing to Canada's national parks, a description of the different attractions, the accommodations and particularly the facilities for camping.

A comparative analysis of the various applications shows that by all odds the strongest appeal of the parks is their scenic beauty and wilderness quality. An extract from one expresses the demand of many: "I want to visit the parks containing the prettiest mountain scenery, as I want to camp out in the wilderness, fish and go mountain climbing." Some of these letters reveal that the writers know almost nothing of Canadian geography. They have heard a rumour of the greatness of the national parks of Canada and they write to ask where they are and how they can get to them. Apparently it has come to be accepted in the minds of the travelling public the continent over that national parks represent the finest examples of magnitude, power, and beauty in natural scenery, in a setting of unspoiled primitive conditions, and their name is now sufficient guarantee of their attractiveness.

Visitors to the national parks come with varied needs, some seeking health, others mere recreation, but the majority are impelled by a desire for rest and freedom. Whether they realize it or not they are usually seeking a way of escape from the increasing complexity and routine of our highly mechanized competitive

life into a world of peace, solitude, and inspiring beauty. In the face of the majestic grandeur of the Rockies, the enchanting loveliness of such places as Lake Louise, the Yoho Valley, Maligne Lake or Mount Robson, a man is lifted out of a pre-occupation with his purely personal problems into a kind of deeper satisfaction and healing of mind, passing, as has been said, "through wonder into joy."

This, in the final analysis, is perhaps the strongest appeal of the national parks. They supply something which answers to a universal craving, a hunger innate apparently in every human being and which must become more deeply felt as population increases and conditions of life on this continent grow more artificial and restricted. Already, the world over, there is a recognition that our present mechanical development may sweep original conditions everywhere away. That is, perhaps, one reason why the recent announcement of Hon. Charles Stewart, Minister of the Interior, that he hoped the time would soon come when there would be a national park in every province, has met with such wide approval. The more far-sighted of our people realize that the changes which will probably come about in Canada during the next hundred years will be enormous. While Canada is already leading the world in the reservation of areas for national parks, it is recognized that the needs of the future are sure to be great and that the time to set aside areas of natural beauty is now, while the land is still unoccupied and primitive conditions in many parts still undisturbed.

Visitors to the national parks last year reached over half a million people but this travel, large as it is, is only in its infancy. The creation of new parks such as the Riding Mountain park recently set aside in Manitoba, the extension and improvements of federal and provincial motor highways now under way will provide new stimuli for travel and, incidentally, bring in new wealth to the Dominion. Expenditure of visitors to the parks range from a few dollars a day to as high as \$100 per day. One visitor to the Canadian West last year revealed that in addition to hotel and transportation expenses his party of four had spent \$6,000 during a three weeks visit, most of it with retail firms. Every new park created becomes an addition to our capital stock and increases our power of attracting tourists. It helps to swell the prosperity of the railway and steamship companies, hotels, lodging houses, retail and wholesale merchants, and in fact spreads out so as to affect every trade and industry.

The name national park has come to stand for such a high degree of excellence that once an area is set aside as a park, travel tends to flow to it in ever-increasing volume. Both in the returns they can give in health and happiness and in actual economic results the national parks must become an increasing national asset.

### New Method For Making Shoes

Factory methods used in mass production of automobiles are being introduced into leading shoe factory of Erfurt, Germany. The footwear is fabricated as it is transported on trays through the factory. The inventor claims the method will reduce costs and increase production.

Submarine cables of the world now have a total of 300,000 miles.

## FIRST AID SCHOOL ON WHEELS

With a view to extending adequate First Aid instruction to its employees in the outlying sections of the system, one of the three new First Aid cars which have just been completed for the Canadian National Railways has been placed in the Western Region for service.

Fully equipped and in charge of a competent instructor, the car will travel to outlying points, bringing courses of instruction to engine men and train men, agents and construction and maintenance of way men who have ordinarily no means of obtaining this knowledge. While their primary use is for instruction, they are, as well, travelling stations ready to assist in emergency, and are the first cars of this type to go into service on a railroad in Canada.

"What bad taste. One does not wear yellow trousers with a morning coat."—Hummel, Hamburg.

CHAPTER X.—Continued.

"I wonder who wove you," she mused dreamily. "You must have seemed almost a part of him as the weeks passed and he saw your loveliness unfold. Did he dread the finishing of his task, I wonder, knowing that at its end he must give you up forever? And did he know that when he was only a memory his work would live, cherished by some one thousands of miles from its own birthplace?"

She stooped, to brush a hand over the silky surface.

"I think you were woven on an old, old loom," she murmured. "You were, perhaps, the only beautiful thing in some humble room. I think that little children watched you grow, and touched you with small, reverent fingers. I think . . ."

Charmian stiffened, suddenly conscious that a shadow was lying across the rich wine color of the old rug; and the blood flew to her cheeks as she saw Jim Bennett in the doorway. Then she sprang up, laughing, in real confusion.

"How long have you been there, listening to me go on like that?" she asked.

Jim grinned.

"Not long enough to be called an intentional eavesdropper; but long enough to wonder—"

"Wonder what?" urged Charmian as he paused.

"If you'd gone dotty—making such passionate love to an inanimate object. Is it something new?"

"New!" echoed Charmian in amazement. "Can't you see with a single glance that it's ages old? Oh, Jim! wouldn't it be wonderful to fur-

nish a home with beautiful things like this? Why, just to walk on it seems a—a profanation."

"In that case," commented Jim, seating himself on a corner of the doctor's desk, "I don't know as 'Home, Sweet Home' would be a real comfortable retreat. If a feller got hollered at every time he happened to step on a rug that was in the way—well, you're right, Charmian, the air would be liable to become charged with something related to profanation!"

Charmian laughed. Then her eyes grew troubled, and she questioned: "But you like it, don't you, Jim? You see its beauty?"

The young man, sensing that this question was a serious matter to the girl, looked down at the rug thoughtfully, then up at the window hangings—at the candlesticks upon the mantel, and at last came back to the anxious eyes of his old playmate.

"Yes, I like it, Charmian; but I was wondering if what pleased me wasn't, maybe, just the whole thing. It looks like you, somehow—this room, I mean. That's why I like it. I suppose," he added honestly, "if you were to hang ten-cent muslin at the windows, and put an American rug with a blue dog in the middle of it like Lizzie Baker's, on the floor, I'd think it was all right because you said so. In some ways, Charmian, I'm a damn fool."

The girl laughed, though she was secretly touched; and asked: "What brings you out this hour of the morning?"

"A trip over beyond South Wickfield, to see about a mortgage for the bank. Thought you might go with me. It's a bully day."

"So it is," she replied regretfully, with a second longing glance toward the open door, "but I've just refused to go with the two M.D.'s because of an extra lot of duties."

"Let 'em wait a day longer. If I could cut out one of those M.D.'s I'd see a ray of light in the surrounding gloom."

"Better take your mother," suggested Charmian, making an unsuccessful effort to suppress a smile.

"She can't go. I—"

"So I'm second fiddle? I wonder, Jim, will any girl ever be anything else to you?"

Instantly, Charmian would have given worlds to recall those words.

A look sprang into Jim Bennett's face that brought back an almost forgotten memory—the same look that had swept over his countenance when as a small boy he had been reproved by the teacher because . . .

In a flash the whole scene came back to her: the old schoolroom with its familiar odor born of chalk and much-thumbed books—Jim, back at his desk for the first time since his father's funeral—the class standing to read, "O Captain, my Captain," and a cruel fate bringing to the boy's turn those words:

"My Captain does not answer, his lips are pale and still, My father does not feel my arm, he has no pulse or will . . ."

And Jim, white-faced, thin-lipped, had refused to read! He had been sent home in disgrace, carrying a sharp reprimand from a teacher who saw in the defiant pupil only an unruly little boy. It was Charmian Davis who opened her eyes to the true state of things, when, as the doors closed behind the white-faced culprit, she had burst into a passion of sympathetic tears.

"Don't you see," she sobbed, "he—he couldn't read it without crying? . . . His own father . . . only the other day . . . And he couldn't cry right before the whole school, could he? So . . . so . . ."

Be it said for the teacher that she cried herself, when brought face to face with her own thoughtlessness.

Later she told Grandma Davis that she had received a lesson she never could forget. And now, years afterward, the scene came back to Charmian with fresh poignancy, and she knew that, somehow, she had hurt the grown-up Jim in the same way he had been hurt on that long-gone day when the teacher misunderstood: Was it possible that she, too, misunderstood him?

Jim, who had thrown his hat on the doctor's desk, reached for it, and, ignoring her careless words, started toward the door. But Charmian, always quick to acknowledge a mistake, barred the way, and the surprised young man felt her hand slip into his.

"Jimmy, I hurt you, didn't I? I don't know what made me such a beast. Just for that I'm going to drop everything and go to ride with you. John Carter can eat cold beans this noon, for all I care! Just wait till I tell Grandma, and—"

Jim laughed, a queer, choky little laugh that she knew came hard.

"Don't be an idiot!" he said. "You haven't hurt me, Charmian; and I won't have you going just for that reason. Honestly, I don't want you to go now. I've got things to mull over in my mind, and you're a disturbing influence. Run along and get your work done. I'm all right."

"But I'm not," smiled the girl. She was gently propelling him out of the doctor's office and toward the house. "I feel the need of air and sunshine, and it's your duty to see that I get both. You talk with Grandma while I set the dinner table, so I won't feel so hurried to get back."

She was away, leaving him standing at the door of the old parlor where Grandma Davis was keeping her accustomed vigil.

"Hello, sonny," she greeted him. "What you doing away from the bank this time o' day?"

"Running down some interest money," explained Jim. "I've persuaded Charmian that it's too good a day to waste indoors."

"So 'tis," agreed the old lady, "and a ride'll do her a lot of good. I'm hoping maybe she'll get out more often when Doctor Carter gets the car he's ordered. It'll be real natural for him to take her when he rides off in the country, won't it?"

"Too darn natural," replied Jim; then, to change the subject: "What's been happening on Broadway this morning, Grandma?"

"You mean Main Street? Well, I'll admit I've seen things more lively than they've been today; but Lizzie Baker lost her seersucker petticoat right on the sidewalk, and had to step out of it and scurry home. It was worth considerable to see that."

"Gosh! I'll say it was!" Jim laughed so heartily that Charmian, setting the table in the room beyond, breathed a sigh of relief, and called: "What's happened? Is it so funny?"

"It wasn't funny for Lizzie Baker," replied Grandma. "You leave that table, dearie. If you're late back the doctor can set it himself; and you musn't keep Jim waiting. There's nothing irritates a man like being kept waiting."

"The table's set; and I won't keep him waiting a minute longer. Ready, Jim?"

He nodded, rising slowly as if reluctant to take his eyes from the picture the girl made as she waited, with the dusky hall as a background for her blue gown. A pink scarf across her arm added a splash colour that matched her cheeks; and if the young man had been slow to appreciate the beauty of an oriental rug, he was certainly not slow to appreciate the charm of his old playmate.

"Where's your hat?" asked Grandma. "You're not going clear to South Wickfield without a hat!"

Charmian laughed.

"I most surely am! After the gorgeous greenness that Jim's accustomed to, I'd be ashamed of—"

"Shucks!" broke in Grandma.

"Your old black straw with the pink roses is enough sight prettier than that—that—"

Words failed her, and the two young people laughed as Jim respond-

## Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Prize For Wheat

The Saskatoon Board of Trade is offering a prize of \$350 to the farmer in the district who produces the best wheat to be exhibited at the next winter fair.

## Nurse Gains 7 lbs. In 2 Weeks With Yeast and Iron

"I am a nurse at the hospital," writes Miss Martha Burns, "and I want to let you know that I am glad to recommend your Ironized Yeast. It gave me a good appetite. I got strong and gained 7 pounds in 2 weeks. I could write all day about how much good Ironized Yeast did me. You would be surprised at the strength I gained in 3 or 4 days."

People everywhere are amazed at the wonderful benefits of Ironized Yeast. Many write they were doubtful when they started. But after taking it regularly for only 3 or 4 weeks they gained 5 to 15 pounds. Ugly hollows fill out. Skinny limbs become gracefully rounded. Blemished skin gets clear and beautiful.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Never cause gas or bloating. Safe—no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, your money back instantly from manufacturer.

Japan now has 37,000,000 postal savings depositors.

Britain claims to have the finest gold-beaters in the world.

### Little Helps For This Week

"Giving thanks always for all things."—Ephesians 5, 20.

Whatso it be, howso it be, Amen!

Blessed it is believing not to see: Now God knows all that is; and we shall then—

Whatso it be!

God's will is best for man, whose will is free;

God's will is better to us, yea, than ten

Desires, whereof He holds and weighs the key—

He knows all want, allots each where and when—

Whatso it be!

—Christina G. Rossetti.

Thou alone knowest what is good for me; Thou alone art Lord of all; do therefore what seemeth to Thee best. Give to me or take from me; conform my will to Thine; and grant that with humble and perfect submission and in holy reverence I may be disposed to receive the orders of Thy eternal providence, and may equally adore every dispensation which shall come to me from Thy Hand.—Pascal.

### Using Automatic Pilots

#### British Planes Make Long Flights With Robot Control

The entire squadron of British night bombing aeroplanes, fitted with "robot" electrical controls, has flown continuously as far as 400 miles without human pilots taking charge. Routes from South England to Scotland have been followed, with automatic pilots, actuated by radio from the ground, in complete charge, and the aeroplanes brought safely to a predetermined destination. The automatic landing is accomplished by means of a weighted wire, which, as soon as it comes in contact with the aerodrome, causes the aeroplane to "flatten out" and glide in with the engine throttle back.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

### Idea Is Alright

#### But People Should Build Foundation Under Air Castles

"If you have built castles in the air, your work need not be lost; that is where they should be. Now put the props under them," said Henry David Thoreau. Helen Keller says we cannot always realize our ideals, but we can always realize our realities, and our ideas must be practical if we are to make a religion of them and live by them. Phillips Brooks expressed a high ideal in these words: "We reduce life to the pettiness of our daily living. We should exalt our living to the grandeur of life."

Use Minard's for Burns.

### Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punichy, Saskatchewan.

## WEEKLY HEALTH BULLETIN

Issued by Red Cross Society

### A MENACE TO HEALTH

Our old enemy, the house fly, will soon be with us again. He never fails to come around when the warm weather arrives. To annoy people and to cause trouble seems to be his special aim in life. From the baby's face to father's bald head, to the milk pitcher and to the food are some of his journeys well known to all of us. Yet in spite of this, and possibly because he is seen too often, it is doubtful of many of us even to fully realize the danger and filthy ways of this common pest.

The house fly lays her eggs (120 at one time) in fresh horse manure. She prefers it, but she will use any heap of garbage or filth. With a very short incubation (2 weeks) period it can be seen how rapidly flies will multiply unless they are controlled. Naturally the best way to control the fly is to destroy the eggs or maggots before their wings are developed and they can move about rapidly.

Why is it necessary to destroy flies and keep them from hatching? All flies can carry disease germs; they are all filthy in the extreme. The legs of flies are provided with a great many short hairs or bristles and as the flies walk over filth containing disease germs, some of these are collected and held by the hairs. When the fly goes again to take a drink from the milk or touches food, some of the germs will be left behind in the milk or on the food. When these are swallowed later with the food by the baby or anyone else, they may cause such diseases as typhoid diarrhoea, dysentery or other illness.

Experiments with the house fly prove that it can be best controlled by sprinkling the infested parts of the manure with a 3 per cent solution of Lyman's Disinfectant. One gallon of disinfectant makes 233 gallons of the solution and costs about 60c a year per horse. The solution should be applied about every second day or sufficiently often to ensure that all maggots are destroyed.

For the few that will escape this treatment a cone trap should be employed. Placed in a sunny place with tasty bait such as molasses and water it will account for most of those left.

### NEW LAWS FOR TOURISTS

Bona fide tourists "seeing Alberta" by Automobile may now operate their cars for as long as six months without having to take out an Alberta license, according to an important amendment to the Vehicles and Highway Traffic Act 1924, passed by the Alberta Legislature recently.

The amendment provides that the tourist must register his car within 24 hours of arrival in the province with the Alberta Provincial Police, but in the case of a United States car even this will not be necessary, production of the customs permit when called upon to do so by any police officer being sufficient authority.

A "visitor's sticker" will be issued by the A.P.P. for cars registered by them and this sticker will be considered sufficient for the licensing and registering of the auto to which it is affixed.

Another important amendment to the act reduces the fine for driving without a driver's license from \$1 to \$5 instead of from \$5 to \$25.

A heavy penalty is provided for the person driving an auto during the suspension or after the cancellation of the driving license or car license, this being \$25 to \$100 for the first offence and not more than 30 days' imprisonment, and for a subsequent offence \$100 to \$500 or a term not exceeding six months' imprisonment.

Infraction of any of the provisions of the criminal code may also draw down cancellation or suspension of the driver's license.

If only the fittest survive, those who dropped out must have been a sorry lot.

STRAYED—To my farm 14 miles S. W. of Carbon, one grey gelding, 4 years old, no visible brand. Emil Lang, Belcher.

## CLEAR THE FIELD FOR BILL BOYD, "THE FLYING FOOL"

Clear the field for "The Flying Fool" He will side slip into the Napier Theatre, Drumheller, on Thursday for a series of dramatic loops and tail spins.

## Snicklefritz ----

Policeman—How did the accident happen?

Motorist—Hic—I saw two bridges—hic—and ran over the wrong one.

"How kind of you," said the girl, "to bring me these lovely flowers, they are so beautiful and fresh. I believe there is some dew on them yet."

"Yes," stammered the young man, in great embarrassment, "but I am going to pay it off tomorrow."

"But surely," cried Jean, "you did not tell him straight out that you loved him?"

"Goodness, no," Mildred said calmly, "he had to squeeze it out of me."

"My husband is away so much of the time that I want a parrot for company. Does this one use rough language?"

"Lady, with that bird in the house you'd never miss your husband."

Edith—Dickey, dear, your office is in State Street, isn't it?

Dickey—Yes, why?

Edith—That's what I told papa. He made a funny mistake about you yesterday. He said he'd been looking for you in Bradstreet.

## PROVINCE OF ALBERTA — NOTICE —

NOTICE is hereby given that the present regulation governing the operation of freight vehicles insofar as it applies to the filing of monthly returns is cancelled. Dated at Edmonton this 18th day of April, 1930.

**J. E. BROWNLEE,**  
Provincial Secretary.  
**E. TROWBRIDGE,**  
Deputy Provincial Secretary.

It is none other than William Boyd, Pathe Star, in a thrilling air drama, the first all-talking aviation picture to be presented on the screen.

"The Flying Fool," is a comedy drama dealing with the exploits of a dare-devil stunt flyer whose principal weakness is women. Pursuing his policy to "find 'em, fool 'em and forget 'em," Boyd mixes his thrills between the ladies and the air and pursues his merry, reckless way until his kid brother falls for a cabaret singer. The kid thinks she is the most wonderful girl in the world, but Bill decides that she is not and announces that he will prove it. The result is that Bill falls in love with the girl himself and then the complications set in.

Greta Garbo stars under Clarence Brown's direction for the third time in "Anna Christie," her first talking picture, which will open Monday at the Napier Theatre, Drumheller.

Charles Bickford plays opposite Miss Garbo in the talking screen version of the famous Eugene O'Neill drama and the supporting cast includes Marie Dressler and George Marion.

All the old favorites of Universal's famous "Cohens and Kellys" series are together again in "The Cohens and Kellys in Scotland," hilarious comedy coming to the Napier Theatre at Drumheller next Thursday, Friday and Saturday. The famous quartet consists of George Sidney, Charlie Murray, Vera Gordon and Kate Price. All four played in "The Cohens and Kellys," the first picture of the highly successful series of which "The Cohens and the Kellys in Scotland," is the fourth.
